Humboldt-Innovation GmbH (HI) and the Research Service Centre (SZF) of the Humboldt-Universität zu Berlin (HU) offer comprehensive consulting and assistance on all issues regarding knowledge and technology transfer for researchers.

**Members of the HU benefit from:**
- attractive funding opportunities for research projects
- greater flexibility in utilisation of the acquired funds
- access to a vast business network consisting of innovative companies, start-ups and the public sector
- further career opportunities for researchers and students of the HU

The Innovation Management Team is your first point of contact if you want to examine the application potential of your findings.

**We offer:**
- personal consulting and innovation scouting
- workshops, seminars and network events with focus on application and transfer
- commercialisation of your application-oriented research expertise
- information and newsletters to transfer-relevant issues, such as tenders and awards

Dieses Projekt wird mit Mitteln der Europäischen Union (Europäischer Sozialfonds) und des Landes Berlin gefördert.
The Innovation Management Team identifies and analyses the exploitation potential of your ideas and findings. The team offers support in selecting suitable transfer-relevant funding programs, creating exploitation plans and choosing a suitable transfer channel (startups, contract research, licensing).

Through application-oriented presentation of research the competences and expertise of the researchers are specifically communicated for themed and sector related research partners at the university.

OUR EVENT FORMATS

Every year, the event series „Wissenschaft trifft Wirtschaft (Science meets Business)“ takes on a current research topic and provides a platform for interdisciplinary exchange between members of the HU, representatives of companies and the public sector.

- humboldt.gmbh/wtw*

The IP-Day is an annual event centred around the subject intellectual property. Participants receive information about patents and copyright, as well as practical tips for patenting strategies and additional ways to protect inventions.
